

MÜHLBAUER GROUP

Think different – Act different – Be different!

Mühlbauer is the only one-stop-shop technology partner, consultant and world's market leader in innovative systems and software solutions for the production and personalization of cards, passports and RFID applications. In addition, the company develops and produces innovative systems for specific niche applications in the semiconductor back-end area as well as labelling and marking systems for traceability of electronic components. Mühlbauer's Precision Parts and Systems segment produces high precision components both for the manufacturing of its own products and to other manufacturers in sensitive industries.
